

GET YOUR MOLES CHECKED
*** REMEMBER EARLY TREATMENT CAN LEAD TO COMPLETE CURE**
Check those moles!

If the answer is 'yes' to any of these questions:

1. Is an existing mole, or new mole, changing in size and appearance?
2. Has your mole changed shape? i.e. developed an irregular outline or become raised?
3. Has your existing mole changed colour?
4. Is your mole bleeding, crusting or oozing?
5. Does your mole itch?

Check your moles.
If any of the following features occur:

Is your Mole Cancerous?
